

PancreasFest 2016

Introduction

The primary purpose of PancreasFest is to bring physicians and investigators together to conduct well-designed multicenter studies to advance understanding of the origin and progression of pancreatic diseases and to provide optimal treatments to patients as soon as possible. PancreasFest emerged from the annual meeting of the Midwest Multicenter Pancreatic Study Group and the annual investigators meeting of the North American Pancreatic Study Group.

This meeting is led by academic physicians who are committed to collaboration to support patients who desperately need answers.

PancreasFest 2016 acknowledges generous support from the following:

- **CAPER** for trainee and junior investigator travel scholarships and Friday lunch sponsorship;
- **National Pancreas Foundation** for Thursday poster reception sponsorship;
- **NIH / NIDDK** for PF16 support and for choosing Pittsburgh as a meeting site for its July 27 NIDDK Chronic Pancreatitis Workshop;
- Our **industry partners** through educational grants and exhibitor support.

Thank you for attending. Be sure to visit www.pancreasfest.org for updates throughout the coming year.

In good health,

David C. Whitcomb, MD, PhD
